Panasonic lamp timer reset procedure

Warning: perform the lamp time reset only when the lamp has been replaced.

1. Press the power button to turn the unit on.

2. There are 3 choices for this step, depending on the housing part number:

   A. TY-LA1000, TY-LA1500 or TY-LA2005
   While pressing the VOL- button on the projection display, hold down the PIP or SPLIT button on the remote control at the same time for more than 5 seconds.

   B. TY-LA1001 or TY-LA2006
   While pressing the VOL- button on the projection display, hold down the number 0 button on the remote control at the same time for more than 5 seconds.

   C. TY-LA2004
   While pressing the VOL- button on the projection display, hold down the MUTE button on the remote control at the same time for more than 5 seconds.

3A. When the reset procedure is complete the following screen will appear:

   LAMP TIME WAS RESET TO 0
   (this screen may be different from the actual screen)

   OR

3B. The POWER and LAMP LED's on the front of the unit will flash for 5 seconds.
   (TY-LA2006)

When the lamp time reset is finished, the LAMP indicator goes out.

It may be necessary to attempt the procedure several times.
